JUNE 3

ATTN: MR. CARLO

Gentlemen:

I am seeking a teaching position as an Vocational teacher in printing. I have been in this trade since 1950 and know it in and out.

I learned my trade in Germany and I have attended Trade school for 3 years and graduated there.

As of this writing, all my papers are in Albany with the Bureau of Certification for evaluation of my proper credits.

My experience in printing reach from setting type to the finished product. I have also knowledge at lithography.

I am giving you all this information at the present, since I am not able to complete your application, and I am still waiting for a proper evaluation.

Very truly yours:

Anton Kienle
