Gentlemen:

I am seeking a teaching position as an industrial teacher in printing. I have been in this trade since 1950 and know it in and out. I do have a highschool diploma, but I am sorry to say that I did not go to college after I got back from Korea.

I learned my trade in Germany and I am sending you my papers to have evaluated for my credits. I do realize that I am short of points, but I am willing to go back to school to earn the proper credits necessary.

Will you please inform me of the proper school or courses to attend in order to get the needed points. Thank you ver much!

Yours truly,
Anton Kienle
